www.ansibits.Ltd.

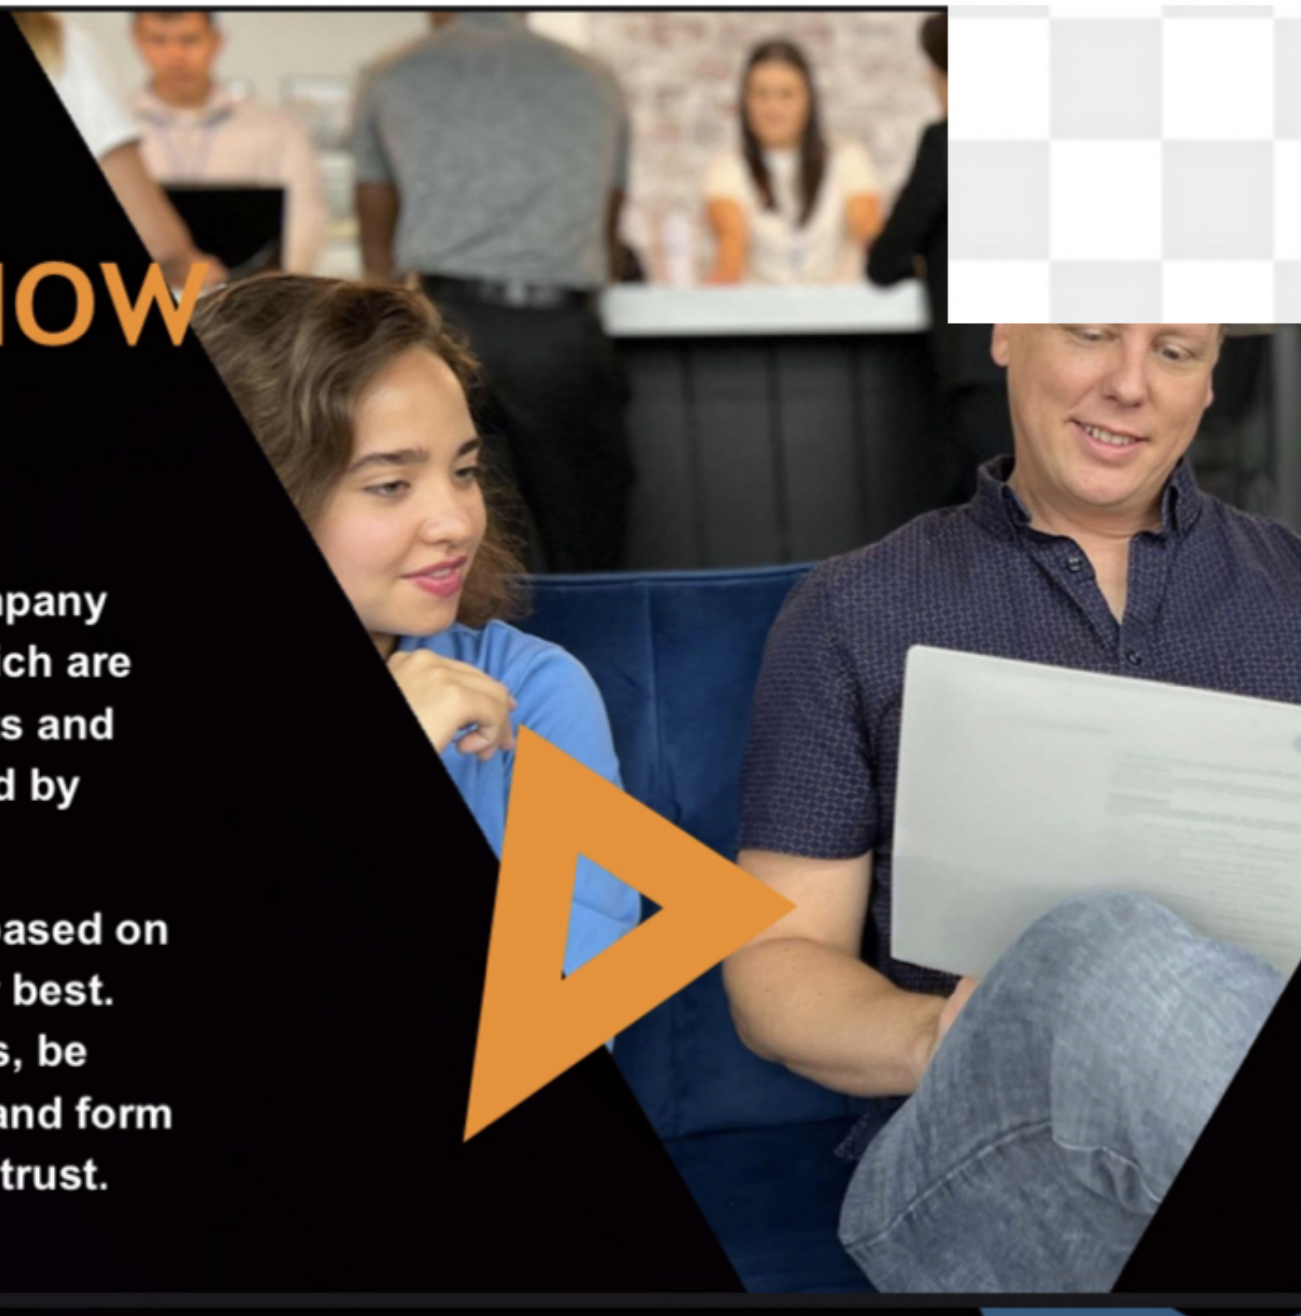

WHAT TO KNOW ABOUT US?

We are an international financial company engaged in investment activities, which are related to trading on financial markets and cryptocurrency exchanges performed by qualified professional traders.

As a firm, our sustained success is based on the ability of our people to be at their best. We want our people to be themselves, be bold, share their unique differences and form deep relationships that are rooted in trust.

MISSION

Create opportunities of professional growth for our audience, from beginners to advanced Forex traders, and for our collaborators and partners (banks, educators, independent analysts, data providers and brokers).

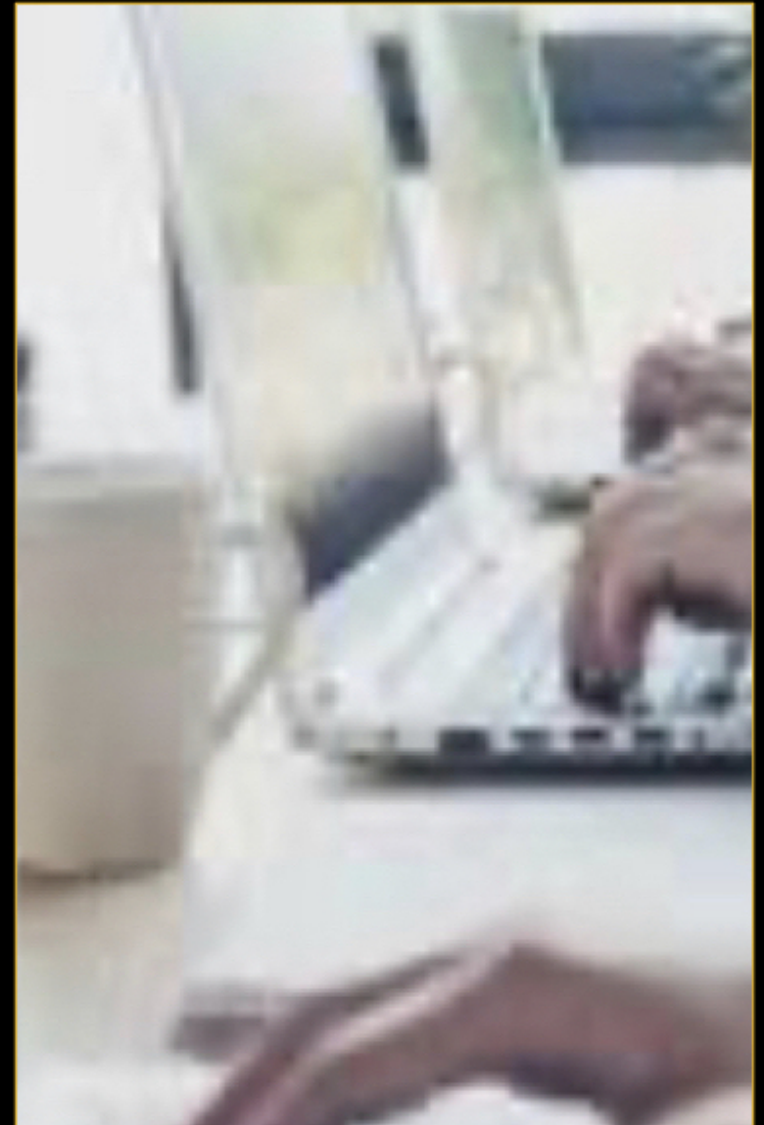

VISION

We deliver the most advanced information and tools such as rates and charts, market analysis, forex news, economic calendar or webinars together with a wide variety of sources of information for traders to access the market in a conscious way.

WHAT WE DO

We trade in a variety of markets, employing diverse strategies from a host of experts.

Ansibits invests and trades in cryptocurrency, stock, real estate, gold etc. Our distinct approach to technology as well as our focus on AI and ML sets us apart from the rest

OUR AREAS OF PROMINENCE

AI and ML

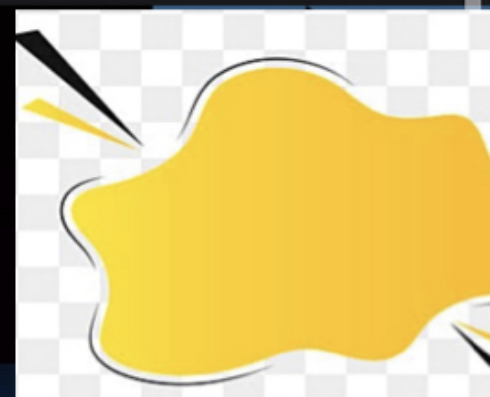

To analyze & assess the trends of the dynamically changing cryptocurrency market, massive volumes of data must be processed, which artificial intelligence and machine learning systems assist with.

Easy and Convenient

Our main feature is the easy and convenient process, which allows everyone to easily understand the procedure.

Expert Support

We provide expert support to make the process simple for everyone. 24*7 support is available for every query from our customers. Our easy-to-use platform & unparalleled customer support can help you every step of the way.

WHAT WE OFFER

★ We trade in a variety of markets, employing a variety of strategies and working with a variety of professionals to meet our goals.

★ In order to maintain our stability, our traders mainly place short and in some cases medium-term bets across various segments of our operation.

Our Line of Operations

SPOT TRADING

Available to trade 24 hours a day, seven days a week

Directly purchasing or selling financial instruments and assets such as cryptocurrencies, commodities, etc. Delivery of the asset is often immediate. Centralized exchanges for spot trading manage regulatory compliance, security, custody, and other factors

OIL & NATURAL GAS

One of the market's most lucrative segments in terms of dollar volume

Trading in oil refers to the profitable acquisition and disposal of various forms of oil and oil-related assets. Due to shifts in supply and demand, oil prices are subject to extreme oscillations. The cost of buying or selling oil "on the spot" as opposed to at a later time is represented by oil spot pricing. Spot prices reflect the value of oil at the time of purchase, whereas futures prices reflect the market's anticipation of the oil's value at the contract's expiration. They represent the demand for different kinds of oil because they are exchange-trade.

Types opportunities In **ANSIBITS**

Returns on Investment

Income from ROI "ROI" stands for "Returns on Investment." Returns on investment are investments that you make and continue to earn returns on for a set amount of time and at a set rate of return on a daily basis. It is the ratio of net income to investment.

Referral Commission

Direct income is another approach to earn money by referring people. If a person repeatedly brings in new members who successfully register and invest in the company, the one who referred earns a referral commission.

Binary Matching Income

Binary/ Matching Income is the same as that of general binary income. One has to match income on both sides which means a 1:1 ratio to receive 10% of the matching income. Binary Capping means the limit through which a user can earn through the Binary Commission per day, and different plans have different capping limits. One can earn up to \$25,000 in a day.

HOW DO WE GENERATE PROFIT?

We generate revenue by trading in multiple segments using artificial intelligence and machine learning.

Trading in cryptocurrencies, Real Estate, Stock and Gold are similar to stock trading, where you buy and sell these for profit margins. We generate revenue by trading using artificial intelligence and machine learning.

Our specialties include spot trading, position trading, CFDs, long-term trading, swing trading, day trading, and so on. The high volatility of cryptocurrencies not only tends to raise the risks of crypto trading but also makes it more profitable than any other type of investment.

WHY CHOOSE US

We are more of an MAM (Multi Account Manager) This is essentially a Big pool of funds generated by investors in which our team of Expert traders with not less than 10years experience in trading digital assets, stocks , commodities, forex and cryptocurrencies daily across multiple exchanges , Markets are been explored by these experts and they are able to predict the rise and fall of assets, helping to generate a maximum return of investments for our investors.

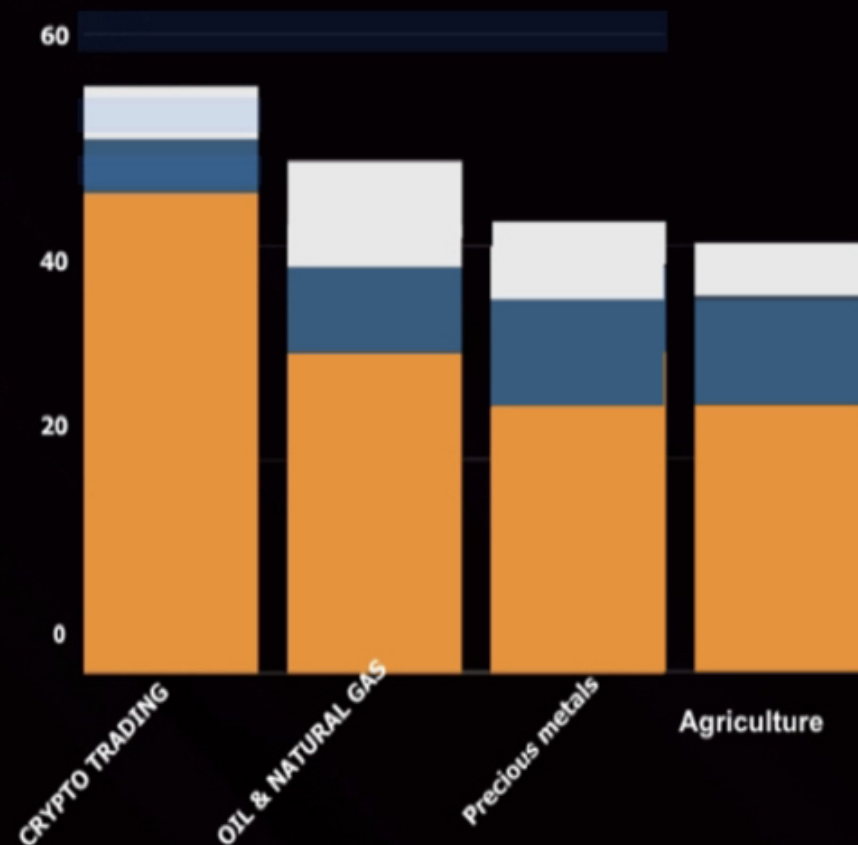

OUR PORTFOLIO

Our portfolio includes a collection of a wide range of assets that are owned
Our collection of financial assets includes valuables such as gold, Staking, crypto, commodities, Stock, gas, etc.

The major components of our investment portfolio is described.
